

# Abraham Zambrano Tablante

Queens, NY | 929-288-3027 | zambranotablante@gmail.com | [LinkedIn](#) | [GitHub](#)

## Technical Skills

---

**Front End:** JavaScript, React, HTML/CSS

**Back End:** PostgreSQL, Express.

**Deployment:** Netlify, Vercel, Render

**Developer Tools:** Git, npm, GitHub, Postman

**Libraries:** TailwindCSS, Firebase

## Software Engineering Projects

---

[Pat.io](#) / [Live Site](#) / [GitHub](#)

- **Technology Utilized:** React, TailwindCSS, Express, JavaScript, SQL, AI Fine-Tuning
- **Synopsis:** AI-Powered assistant with Seamless Multi-Language Support and Accurate Social Security information
- **Technical Results:**
  - Leveraged OpenAI's fine-tuning techniques to craft a powerful AI chatbot assistant, enabling accurate answers to migration-related questions with precision and reliability.
  - Integrated multilingual capabilities to translate responses into 24 of New York City's most widely spoken languages, creating an accessible tool for migrants from diverse backgrounds.
  - Designed a user-friendly interface, incorporating accessibility standards to ensure ease of use for individuals with disabilities, delivering inclusivity in every interaction.

## Work Experience

---

**Front Desk Coordinator | Wallack Management Company**

**2024-Present**

- Provided exceptional support, coordinated amenities, and ensured a welcoming environment.
- Managed access, maintained records, and handled emergency response.
- Assisted with daily operations and facilitated resident-staff communication.

**Tax Preparer | H&R Block**

**2022-2024**

- Handled tax preparation for over 100 returning clients each season, developing strategies to maximize returns and plan effectively for future tax years.
- Delivered personalized bilingual support (English/Spanish), professionally addressing client questions and clarifying complex tax scenarios.
- Ensured accurate and compliant tax filings by staying current with tax laws and meticulous attention to detail.

## Education

---

**Full Stack Software Engineering | Pursuit Fellowship | Long Island City, New York**

**October 2023 - March 2025**

**Relevant Course Work:** Javascript, HTML, CSS, Tailwind, React, PostgreSQL, Test Driven Development, Deployment with ElephantSQL

**Computer Science (Incomplete) | Universidad Nacional Experimental Romulo Gallegos | Venezuela**

**December 2015**

**Relevant Course Work:** Mathematics I - IV, Computer Programming I, Boolean Algebra, Data Bases, Data Structures and Algorithms, Research Methods in Computers and Society
